

Thermoforming and Vacuum Forming Machines

Specifications

7" or 10" HMI Touch Panel

Adjustable spiked-chain system to feed plastic sheet material.

AC Motor or Servo Motor for chains

Hydraulic or Servo Driven Forming Cutting stations

Quartz or Ceramic Heating Elements

Roll Unwinder and Skeleton Winder with Torque and Position Control

Rigid Machine Body Construction

Mold Dimensions max. 600mmx250mm and 800mmx300mm

Dry Cycle 60cyc/min
